THE SPIRIT OF PROFESSIONAL GUIDELINES

Medicine, dentistry and the medical sciences are professions based on a relationship of trust with patients. The term "profession" means "a dedication, promise or commitment publicly made".¹ To be a good doctor, dentist or medical scientist requires a life-long commitment to good professional and ethical practices and an overriding dedication to the good of one's fellow humans and society. In essence, the practice of medicine, dentistry and the medical sciences is a moral enterprise. In this spirit the Medical and Dental Professions Board presents the following ethical guidelines.

NATIONAL PATIENTS' RIGHTS CHARTER

PREAMBLE

The Department of Health, in consultation with various other bodies, developed a National Patients' Rights Charter. The Medical and Dental Professions Board at the time also submitted input into the different drafts that were circulated for comments.

The document contained herein was launched by the Minister of Health and agreed to by the Board. It has since been included in the Board's *Handbook for Interns, Accredited facilities and Health Authorities*.

The Board takes this opportunity to make the National Patients' Rights Charter available to all practitioners provided for by the Board as part of its series of Booklets on Guidelines for Good Practice in Medicine, Dentistry and Medical Sciences.
